Fill Places With Democrats.

We are not among those who decry the energies of the office-seeker, unless he grows intolerably persistent. The people voted for a change in the whole (local) family, and the sooner the "rats" are turned out, the better for the democratic administration. The party can hope for nothing of benefit by retaining them. We shall be glad to see a law requiring that every official be in sympathy with the administration of which he is a part, and making the tenure of office co-existent with the chief. Nothing can be accomplished for good in a house divided against itself. Every one of the 30,000 appointees in the service of the government, not protected by the Civil Service Law, should be made to go as soon as practicable, but decency and in order. As the governor of North Carolina said, "It has been a long time since the democrats have tasted of the flesh pots of office and their desire to get to the pie counter is, but natural. Many of these now seeking office were largely instrumental in electing Mr. Wilson and the created should not get too high above the creator. We are confident that the President realizes this, and is disposed to make appointments as soon as the most worthy can be ascertained. This can not be done in a twinkling. It takes time and the very urgent must be taught a lesson.

Rugged old Andrew Jackson never said a more popular and a truer thing than "to the victors belong the spoils," as much as some people may inveigh against the system. There should be a change all along the line, and while the disposition of the patronage may work the President overtime, he cannot engage in a more popular business to the country and to his administration. In this connection it is gratifying to note that the new Postmaster General will ask the President to revoke former President Taft's order placing 35,000 postmasters in the classified service or that the republican incumbents shall be subjected to merit tests along with democratic applicants. It is hoped that one or the other will be done. Mr. Taft's little political play should be counteracted in some way.—W. P. Walton in Lexington Herald.

Attention! Poultry Raisers.

Mr. W. T. Vaughn, grocer, corner Collins and Main streets, has installed a mill for grinding fresh bones. This makes a most excellent food for all kinds of fowls, 5 cents a pound. Call and see him. Phone 614. 35-1f.

White House Dry.

The Wilson administration will be "dry." This expression is used entirely in the sense that appeals to the inner man of the nation and not necessarily to those who look for stereotyped methods of government. It became known that President Wilson and his family, all of them, are averse to the use of liquor or wine in any form. Intoxicating liquors will have no place in the White House during the next four years, unless the President's views undergo a very sharp change.

The Premier in the President's cabinet, Secretary of State Bryan, as is well known, has been a prohibition advocate for many years. On one occasion Mr. Bryan would have made it a national issue and it was due to his efforts that the prohibition legislation in Nebraska was put into effect.

It is well known that Speaker Clark is a "teetotaler" and has been for many years. The fact that a large portion of the democratic majority in the Senate and House is from the South, where prohibition is general, makes certain the fact that there will be little wine and less wassail than has been known in Washington for many years.

There never has been so dry a prospect in the White House since the days of President Hayes, when Mrs. Hayes excluded wines and liquors from the executive mansion immediately on becoming its mistress. The slideboard, on which the wine glasses and decanters of that administration once were displayed, now graces a local barroom.

Extraordinary Educational
Features For Friday,
March 21st.

The magnitude of the world's greatest enterprise, the construction of the Panama Canal, will never be fully recognized by persons who have not visited the Canal zone while the great work was in progress.

Millions upon millions of tons of dirt and solid rock, which stood a giant barrier to the project, have been swept aside by the world's greatest engineers and the skill of the best workmen on the globe—Americans. Hills that were mountains have been divided, conquered by the progressiveness and aggressiveness of American spirit and determination. Where the greatest men of the world's past history in scientific achievements have failed, Col. Goethals, of the U. S. Army, backed by American dollars and brains, has succeeded, and when the waters of the Atlantic merge with the willing waters of the Pacific, a page of history, remarkable, epoch-making history, will have been written.

No amount of reading will give one the true impression of the stupendous task that the government took up in the building of the Panama Canal.

Moving pictures of the entire route were taken when President Taft made his official inspection of the Canal from December 19 to the 31, 1912. These pictures will be exhibited in a short while in this city, and no one of public spirit, who is interested in the welfare of the nation, should fail to see these pictures.

MISS ALMA BECK.

(Continued.)
She will appear at Normal Chapel Monday night, March 21st, under auspices of the Federation of Music Clubs.

Peculiar Accident.

While plowing in a field near his home, in the eastern part of the county, a few days ago, the team of mules of Wm. Philippi suddenly plunged through the earth which suddenly gave way under them, and one of the mules went into a sink hole about 15 or 20 feet deep. Securing the aid of a number of men, they finally dug the animal out of the hole, but it died in a short time from the injuries sustained. No evidence of a sink hole was to be seen by Mr. Philippi, and the first intimation he had of it was when the earth suddenly gave away beneath his team.—Somerset Journal.

Attention, Merchants!

On next Saturday, March 22nd, Mr. Alexander, the auction man, of Lexington, Ky., will offer to the highest bidder a beautiful, 30-foot wall case, suitable for gents' or ladies' garments, millinery or harness business. The original cost was \$925. Positively no by-bidding and the longest pole will knock the plum and happy life.

Many Floaters.

The Nicholasville News had the following editorial in support of Judge Benton's vote buying in that county:

"In his instructions to the grand jury Monday, Judge Benton touched very strongly on the corruptness in buying votes in elections. He stated that the better class of voters all over the county was disgusted with this corrupt method of securing offices, and that he believed they were going to put a stop to it. The News has heard it stated that there were fully 800 dollars in Jessamine, who at every election like the one to be held on August 2d sell their votes."

Federal Patronage in Kentucky.

With great regard for Vice President Marshall's good feelings, we venture to express the doubt whether his interference in the distribution of Federal patronage in Kentucky will be beneficial to the Vice President, to the democratic party or to the public service in this State.

The government needs an able and an efficient collector of internal revenue at Danville. The Vice President knows one gentleman in Danville whom he considers well fitted for the place. Mr. Wallace's home reputation suffices to sustain this contention. Yet it cannot be assumed that the gentleman from Indiana is quite so well fitted to express opinions in regard to this matter as the member of Congress from the 8th district of Kentucky, or as the Senator from Kentucky, or the citizens of Danville.

Patronage should not go by favor. We have made some progress in an effort to establish the merit system. It has not been eminently successful. It has been loaded down with many unreasonable demands, but the first claim to place should be merit, and that claim should be established by examination.

The recommendation by the Vice President of a special candidate for collector in the 8th district of Kentucky is based upon the fact that these two gentlemen "have spent their summers together in Michigan for several years."

To know Mr. Marshall must be a liberal education in itself. Probably it has in it special training for the duties of collector of internal revenue in Kentucky, but this is not manifest. The trouble is, we have in politics too much of the rule of action described in one of the parables of scripture, where the unjust judge rendered the decision, not because he was entitled to it, but because he was important.

This is written with no desire to interfere with the selection of Mr. Wallace, if the selection of Mr. Wallace is based upon the fact that these two gentlemen "have spent their summers together in Michigan for several years." To know Mr. Marshall must be a liberal education in itself. Probably it has in it special training for the duties of collector of internal revenue in Kentucky, but this is not manifest. College Hill.

Mr. Simpson Norris, who has been seriously sick of pneumonia, is much improved.

Miss Laura Williams left last Monday for Corbin to assume her duties as teacher for Mrs. Brown.

Miss Alice Edwards, who has been so seriously ill for the past three weeks, is slowly improving, we are very glad to say.

The announcement of the marriage of Mr. Chester Brandenberg and Miss Pearl Kaywood, of this place, which occurred at Jeffersonville, Ind., several weeks ago, whether they had gone with Mr. Cecil Willoughby and bride on their wedding trip, will come as a pleasant surprise to their many friends. Mr. Brandenberg is a son of Mr. Ansel Brandenberg and a prosperous young farmer, while his bride is a pretty, winsome lady who numbers her friends by her acquaintances. They have a host of friends who will join in wishing them a long and happy life.

This year's cheese, it is reported, will weigh 10,000 pounds and will take 65 tons of milk and cream from 6,500 cows milked by 1,550 men. Eighteen expert cheese makers and 25 assistants will be employed in the construction of the cheese, which will be transported to Chicago in a specially constructed refrigerator car.

Nancy Hanks 2:04, the former champion trotter, now owned by Edward and Joseph Madden at Hamburg Place, will be bred this spring to The Tramp, premier stallion at Elmwood Farm. Nancy Hanks, in addition to being a really great trotter, has accomplished more by far in the stud than any other champion trotting mare and for this reason it is especially interesting to know that stallions she will be bred each season. J. S. and W. K. Estill, owners of The Tramp, think there is a good chance to get her in foal despite her age. She is not in foal this spring but lost a foal in 1911, and appears to be as good as a mare little over half her age.

A Change.

The thinkers of the country profess clearly to see a tide in this country leading away from old and established national habits, into new and vitalizing ways.

We have come to the parting with the tariff as a protection measure, and as such protection served to create an era in this country, so its abolition will create another era.

The time has arrived when the great mass of Americans are to be burdened to support our manufacturing interests. It is realized that however important our manufactures are, they constitute practically but one interest, and to allow all the rest to suffer for the welfare of the one, is a blind policy.

The throwing off of the tariff is virtually the placing of our manufacturing upon a world competitive basis. And it goes without saying that, relieved of protection, certain interests are going to suffer. The removal of the tariff is the removal of the infant's lips, with the admonition that henceforth it must feed itself, is going to cause for a time a mighty wall.

And what will be the ultimate result? The excitement will subside, and when the country awakens, it will discover that an entire readjustment of the life of the body politic is necessary. The revolution in our world of manufacturing will cause for a time at least shrinkage, and that shrinkage will result in an exodus from the centers of manufacture.

Rice & Arnold

A JEAN VALJEAN story comes from the Ohio penitentiary. William Welch did not steal a loaf of bread for his starving family, as did Hugo's Frenchman, but driven by hunger he stole a piece of bacon from a dwelling house. Arrested, he pleaded guilty and was sentenced to the penitentiary. This was six years ago. He lifted his hand against no man, he attacked no woman. He frightened no child. He destroyed nothing. He had to have food and he took a dollar's worth of bacon. The thought of the unjust punishment drove him mad and he has just been transferred from prison to asylum to spend the balance of his life. And this in America, the land of the free and home of the brave! Shame upon the judge, the governor and the State generally.

We agree with the Louisville Post for once. Vice President Marshall was mingling in affairs that did not concern him when he asked Senator Ollie James to endorse John M. Wallace, mayor of Danville, for collector of this district. The fact that Vice President Marshall and Mr. Wallace have spent their summers in Michigan together for several years is hardly sufficient ground for the request, it seems to us.

EDITOR LANDRUM, of the Danville Messenger, is very thankful for the garden seed sent him by Representative Helm, but is lamenting the fact that he did not send along a garden to plant the seed in. But come to think of it, he had so cheap around Danville even a newspaper man ought to afford a place for his own vine and fig tree.

The Portland, Oregon, man who is leading a mule from Maine to his home State, to pay an election bet, would be doing more for the support of this family were he pulling the bell cord over one of the long-eared quadrupeds hooked to an up-to-date plow. Of all fools, the election better seems to be the biggest.

The title of the "Cabinet Beauty" has been conferred by general acclaim upon Miss Xenia McAdoo, daughter of the new Secretary of the Treasury, and if she is half as pretty as her pictures would indicate, the term is no misnomer.

Gov. DEANE has vetoed the South Carolina educational bill. Certainly! He doesn't want the coming generation to ever know what a "darned fool" the State once had for a Governor.

WARREN ALLEN, the cleverest man in the world and possessing the ability to hold any office credibly, is an applicant for the postoffice at Harrodsburg.

Did you wear green, look green or feel green yesterday? If you did neither, you did not fitly observe St. Patrick's Day.

MARRIED

Two Small Fires.

The fire company was called about noon Sunday to the home of Mrs. Ellen Gibson, but by the time it got there, Prof. Johnson and a number of the Normal students had the fire out. The damages were not great. This morning a call was turned in from the East End. It proved to be the home of Luther Taylor, colored, and the flames were extinguished before much damage was done.

NEWS NOTES

Two men were killed and a third was wounded in a shooting affair at an oyster supper at Fish Spring, Tenn.

Former banker Charles W. Morse, just returned from Europe, confirms the report that he will engage in business.

The police force had to be kept people back at Pensacola, Cal., last Sabbath, at the church where Dr. Henry Dyke held services.

In an address at Montclair, N. J., W. C. Redfield, the new Secretary of Commerce, declared for a moderate but balanced reduction of the tariff.

Two boys were killed and two men injured when the boiler in a sawmill on Green River, between Calhoun and Livermore, exploded yesterday.

The National Child Labor committee in session at Jacksonville, Fla., has appealed to manufacturers to join with them in the abolition of child labor.

Answered for the failure of an attempted reconciliation, W. P. Mize, a travel salesman, who is killed in a dance Miss Annie Hall, at Mason, Ga., and then committed suicide.

Without any pre-announcement as to their intentions, President Wilson and family attended the Presbyterian church in Washington where Secretary of State Bryan worshipped.

Without any clothing other than their "nightgown" and blanket from their pedicab boys, men from the Kentucky State Penitentiary at Frankfort, Tenn., were taken to the State Penitentiary at New York City.

ing from an abutting building on a near-by street to the richly-stored vault, making a clean "getaway."

After nearly 40 years of public service Joseph G. Cannon—"Uncle Joe"—former Speaker of the House and Representative, departed from Washington, Monday, for Danville, Ill., to take up the duties of a private citizen.

Silas Williams, a negro, who, February 25, attempted to assault Mrs. Luc Mottet, of near Troy, and inflicted fatal injuries on Mrs. Susan Black, was found guilty of murder by a jury at Versailles and sentenced to die in the electric chair at Edwsville Friday.

The Senate has confirmed the nomination of Daniel L. Tate, the Kentucky cavalry officer, to be a Lieutenant Colonel. It was this officer who gave the order, after one of his troops had been wounded by Mexicans at Nogales, to "cease firing, or I am coming after you."

The Sporting News deduced that because Tilton Jones, manager of the Richmond Pioneers, has become candidate for sheriff of Laurel county, and Hogan L. Yancey, former manager of the Colts, is at present city attorney of Lexington and is a candidate for county judge, baseball and politics "mix fast" in Kentucky.

The three students of the University of North Carolina, Ralph Osham, Will Merriman and Aubrey Hatch, were found guilty of manslaughter in connection with the death of a fellow student, Will Rand, while the latter was being lured last September. They were each sentenced to four months in jail.

Declaring the United States ought to be the most scrupulous of all nations in the keeping of its treaty obligations, "even to its own hurt," the trustees of the Carnegie Endowment for International Peace which Andrew Carnegie endowed with \$10,000,000, issued an appeal urging the repeal of the act of Congress which exempts American coastwise vessels from payment of Panama Canal toll.

NORMAL NOTES.

Prof. F. C. Butler, of Versailles, of the State Department of Rural School supervision, will substitute for Prof. Coates next week in the work of the course of Rural Supervision now being given at the Normal.

Mr. W. P. Pogue, of the Department of Education, will be here to give a course of lectures on the work of the County Superintendent, with suggestions about the best ways to conduct the office work, teachers' reports, etc.

Upon two occasions this week the boys of Memorial Hall have demonstrated their efficiency as fire fighters. Sunday morning they went to the rescue of Mrs. Gibson's residence at Ellendale, adjoining the campus and on Monday morning they did good work at the fire which destroyed the residence of Mrs. Burman. This fire had made too much headway before being discovered to be controlled by a bucket brigade, but the boys fell to work in a body and in a few minutes carried everything portable out of the house, including the grand piano, range, and bath tub.

Mr. Linville Amburgey, of Knott county, is improving. Mr. Amburgey was operated on at the Patton's Clay Infirmary Thursday last for mastoiditis, Dr. Stucky, of Lexington, Tenn., of this city and Cowry, of Berea, officiating.

The Shepherd of The Hills, presented by a most capable company, pleased a large audience at the Grand Opera House last night. R. E. Maupin, salesman for Kellogg & Co., incorporated, and F. E. Chase, Secretary and Treasurer of The Madison Garage, incorporated, state that the above is an accurate and full account of the cost of operating a FORD runabout by R. E. Maupin, during the month of February, 1913.

Days in operation..... 22
Miles covered..... 858
Total average cost per mile traveled..... 24 cents
Average miles per gallon gasoline..... 17 1/2 miles
Average miles per gallon oil..... 490 miles

The books of The Madison Garage are open to anyone who is interested in comparing the distance to Lexington at 20 miles, this means that the average cost of a round trip would be \$1.30.

No time was lost on account of mechanical trouble, and the one tire blow out (which was repaired by The Madison Garage and has been in daily use since) was caused by water in a deep rut on a bad road, making it impossible to see obstruction which caused the blow out.

You will note that a storage charge is included in this account, which means that every hour of every day or every night the owner is able to drive his car in or out of The Madison Garage, there is no charge for storage.

This FORD car was run regardless of road or weather conditions, a good part of the time with chains on, and the low cost of operation will appeal to any one who owns a car, or who expects to own one, unless he has no regard for expense; for a FORD will take you there and back and do it comfortably.

Call and let The Madison Garage show you this wonderfully efficient and economical car, and explain to you the contract under which they operate with the Ford Company, which provides that they carry at all times an adequate supply of spare parts, which enables FORD owners to get quick and more satisfactory service than owners of other cars can hope for.

You know they say there are only two cars—the FORD and the CAN'T AP FORD. You can easily understand this when you are told that you can buy piece by piece from any FORD agent, at the price, and have a car at very little greater cost than a new car.

The Madison Garage, in addition to having FORD cars, carries a general garage business, and will repair any car, be it new or old, and has on hand at all times and at a very low price a full stock of mechanical supplies and accessories and also a complete line of motor car parts, including tires, and is in a position to give mechanics of all kinds the best service for which they are equipped.

A Call

We, the undersigned, saw with pleasure in the Kentucky Register, the call of many democrats asking D. A. McCord to become a candidate for jailer of Madison county, subject to the action of the Democratic party.

We believe Mr. McCord has made a good sheriff and would make a better jailer. We therefore adopt this means of urging Mr. McCord to become a candidate for jailer.

MARY DEMOCRATS

Mrs. E. Tutt Burnam's Home Burns.

Fire, caused by a defective flue, destroyed completely the home of Mrs. E. Tutt Burnam on Lancaster street about 8 o'clock Monday morning. A good portion of the contents were saved, students of the Normal School doing excellent work in getting out the furniture, etc., before the arrival of the fire company, which had to make a long run. Mrs. Burnam was in Denver, Col., at the bedside of her mother but on being wired concerning her fire loss she started at once for this city. There was an insurance of \$1,000 on the residence and \$1,000 on the contents.

Second Team Bests The First

In one of the most interesting games of the season, the second team of Caldwell High School defeated the first team of that institution Friday night by a score of 8 to 5. The game was interesting from start to finish. All of the second team played good ball, but that of "Sis" Azbill was the feature of the game. The referee was Mr. Hugh Culton and he did excellent work with the "whistle." The line-up was as follows:

Davison	Forward	Kunkle
Shearer	Forward	Achill

Miss Taylor Wins, With Miss Turner a Close Second.

The third count in the climax popular contest showed Miss Laura Taylor winner, she having made the greatest gain since the last count which was made on Feb. 15th. On that date her vote was 59,575, while a month later it was 144,250. Miss Etta Turner, who won second money at the last count, came second again, running her vote from 60,925 to 138,525 during the month.

Miss Bernice Robertson would have won third money, had there been any. Her vote increased from 41,850 to 115,925. Miss Georgia Walton, who was victorious last count, was fourth Saturday. Her gain was from 61,435 to 114,225. Miss Charlotte Azbill was fifth in the race and Mrs. Minnie Terrill sixth. So it will be seen that it is a neck and neck race between Miss Taylor and Turner and that the four leaders are well balanced. The game is getting interesting and there's no telling who will win the handsome piano on the final count to be made on April 15th.

The bonuses in the home stretch, which is now being reached are as follows: For seven new subscribers 8,000 votes, for seven back subscribers 1,000 votes.

For every three five-year new subscribers or renewals, 40,000 votes. In this case \$10 can be paid by one person and \$5 from another, or \$15 from one or \$5 each from three persons.

For every two 20-year subscriptions, new or renewals, 135,000 votes. \$10 can come from one person or \$20 from two.

Contestants are requested to have their names written plainly on the coupons. At the count made Saturday 40 coupons were thrown out because no name appeared on them.

Three Times In Three Years.

During the three years that Mr. L. M. Scrivner has resided in Burnamwood he has missed going down town after partaking of his supper only three times, or once a year. On a very cold night, during winter before last, he did not attempt to carry out his daily program, but he did on the two other occasions, when the weather played a part. A month ago he started out on his nightly jaunt but dropped in on his neighbor, Mr. Jeff Stone, in order to avoid the drenching rain. Last Thursday night, when the wind was blowing a gale, the rain falling in torrents, and "lightning flashed and thunder rolled," he went on his journey, but got no further than Mr. T. K. Hamilton's, where he honored that gentleman with a call. Friends down town missed him each time and the "folks at home" answered many phone calls concerning him. It is three trips to town a day—morning, noon and evening—with Mr. Scrivner, and he finds business and pleasure in them as well as the healthful exercise he gets in making the three round trips that keep him in such good trim. He is as regular as clock work in his going and coming, and he furnishes the time for many of those living on the route he goes.

DEATHS

After a long illness of tuberculosis, Miss Della Tudor, whose illness has several times been noted in these columns, died at her home near Millton at 10 o'clock Saturday morning. The burial occurred in Richmond Cemetery at 1:30 Sunday afternoon, followed to the grave by a large number of friends and relatives, after services at the home at 11 o'clock by Rev. T. E. Harlow, of the Christian church. She was 23 years old, a devoted member of the Christian church and a splendid young woman. Her father, Mr. W. H. Tudor, died some years ago, but the mother is still to be seen in the loss of her daughter, whose ill health had given her even closer to her. May she be given strength to withstand the fearful blow that has been dealt her, and soon realize that her loss is her daughter's eternal gain. Miss Tudor's death is an extremely sad one and much sympathy is felt for the family and friends.

The news comes from Hickory, N. C., that Dr. D. L. Fry, well known in this county, where he lived a number of years, had died following an operation. Dr. Fry was a kind hearted, clever man, a successful practitioner, a good citizen, and the announcement of his death will bring sorrow to many hearts.

every day. Post-mortem examinations often show that tuberculosis had been arrested by strengthening the lungs before the germs gained mastery.

You can strengthen your resistance-power by taking Scott's Emulsion. It contains available energy in concentrated form, which quickly nourishes all the organs of the body. It repairs waste--makes rich, active blood and supplies energy to the starving cells. It's the only way to enable the body to resist tuberculosis.

For stubborn colds and bronchitis nothing compares with Scott's Emulsion. Refuse substitutes--insist on SCOTT'S.

A Message To Railroad Men.

E. S. Bacon, 11 East St., Bath, Me., sends out this warning to railroaders everywhere. "My work as conductor caused a chronic inflammation of the kidneys and I was miserable and all play-acting over it. I began taking Foley Kidney Pills to regain my strength, and I am better now than I have been for twenty years." Try them. For sale all druggists.

FRAIL, SICKLY CHILD

Restored to Health by Vinol--Letter to Mothers.

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite. For the benefit of such mothers in this vicinity we publish the following letter.

J. Edmund Miller, New Haven, Conn., says: "My little daughter, ever since her birth, had been frail and sickly, and was a constant source of worry. Several months ago we commenced to give her Vinol. I immediately noted an improvement in her health and appearance. I gave her three bottles of Vinol, and from the good it has done her I can truly say it will do all you claim."

This child's recovery was due to the combined action of the medicinal elements extracted from grape livers, combined with the blood-making and strength-giving properties of Vinol tonic iron, which are contained in Vinol.

"Vinol will build up and strengthen delicate children, old people and the weak, run-down and debilitated. We return the money in every case where it fails."

We will get rid of your cough or we will refund your money. J. J. Owens, of Allendale, S. C., writes the way hundreds of others have done: "After twenty years, I find that Dr. King's New Discovery is the best remedy for coughs and colds that I have ever used." For coughs and colds and all throat and lung troubles, it has no equal. 50c and \$1.00 at all dealers.

The Cause of Rheumatism.

Stomach trouble, lazy liver and deranged kidneys are the cause of rheumatism. Get your stomach, liver, kidneys and bowels in healthy condition by taking Electric Bitters, and you will not be troubled with the pains of rheumatism. Chas. B. Allen, a school principal, of Sullivan, Ga., who suffered intensely from rheumatism, liver and stomach trouble and diseased kidneys, writes: "All remedies failed until I used Electric Bitters, but four bottles of this wonderful remedy cured me completely. Now my rheumatic pains come from stomach, liver and kidney troubles. Electric Bitters cured me promptly. 50c and \$1.00. Recommended by all dealers."

Nearly every skin disease yields quickly and permanently to Bucklen's Arnica Salve, and nothing is better for itching, eruptions, eczema, and all skin diseases. John Day, of Gladwin, Mich., says after suffering twelve years with skin disease and spending \$400 in doctors' bills, Bucklen's Arnica Salve cured him. It will help you. Only 25c. A Cold, LaGrippe, Then Pneumonia.

It is too often the fatal sequence. La Grippe coughs hang on, weaken the system, and lower the vital resistance. G. Collins, postmaster, Barnegat, N. For sale by all dealers."

Chronic Stomach Trouble.

There is nothing more discouraging than a chronic disorder of the stomach. It is not surprising that many suffer for years with such an ailment, and a permanent cure is within their reach and may be had for a trifle. "Always a year ago," says T. H. Beck, of Shawnee, Kansas: "I suffered a chronic case of stomach trouble, and after many months of treatment, I finally secured a permanent cure by using Dr. King's New Discovery. It cured me completely. I can now eat and digest anything I desire."
